

Ng Yoke Weng

Ng Yoke Weng joined Singapore Telecom (SingTel) in 1997 as the Chief Information Officer (CIO). He is re-designated as the Group CIO in 2003 following the integration of IT operations in the Singapore and Australia business (Optus). In this position, he is overall responsible for the planning, development and operations of the IT infrastructure and information systems in SingTel.

These IT systems support business operations in areas like billing, customer care, Operations Support systems (OSS), marketing, human resource and finance. For IT infrastructure, this covers the various data centers in SingTel as well as the wide-area and local area networks for internal use, including desktops and web infrastructure.

He is also covering the newly created role of Group Chief Technology Officer. In this role, he is responsible for charting the strategic directions for all the network assets in the group including both fixed and mobile networks.

Prior to joining SingTel, he was the Director of the Systems & Computer Organisation of the Ministry of Defence, Singapore.

Ng Yoke Weng graduated with a First Class Bachelor Degree in Electrical Engineering from the University of Canterbury, New Zealand and attended the Program for Management Development at the Harvard Business School.

Chong Yoke Sin

Dr Chong Yoke Sin is the CEO of Integrated Health Information Systems.

With a PhD in Chemistry from the National University of Singapore, Dr Chong's first job was a Systems Engineer with IBM in 1983. She became the Asia Product Head for CICS in 1987, and was Advisory Systems Engineer when she left IBM in 1991. She then went on to Hitachi Data Systems, where she was the Consulting Manager up till 1995 when she left to join NCS.

Dr Chong joined NCS in 1996 as the General Manager of Business, where she led the business and delivery functions of the group. She rose through the ranks to become the COO in 2003, and played a key role as Project Executive and Sponsor for many significant projects. She personally oversaw many of the large-scale, across-government implementations for Singapore, Hong Kong and the region, and led NCS' drive into the commercial and regional markets to grow the business. In 2005, Dr Chong became the CEO of NCS Group.

Dr Chong also completed the Advanced Management Programme at the Harvard Business School in 1998. Dr Chong is active in several IT and business associations and holds important appointments, such as Board Member of the Health Sciences Authority and Chairman of Finance Committee; Board Member of the Women Leadership Board of The Kennedy School of Government, Harvard University; and Vice Chairman of the Singapore IT Federation (SiTF) and Chairman of the e-Government Chapter.

Dr Chong was also awarded the NUS Outstanding Science Alumni Award for 2007.

Lim Swee Cheang

Lim Swee Cheng is the Director of ISS, NUS.

Swee Cheang has been instrumental in leading ISS education and consulting programmes since 1984. He currently sits on the Advisory Committee of Republic Polytechnic and Nanyang Polytechnic and NSL Ltd's (formally known as Natsteel Ltd) Corporate Research and Development Advisory Panel. He was on various national committees, including serving in the Singapore Government Economic Review Committee Working Group on ICT and chairing the NICF Working Group in the National Infocomm Competency Council. He was also a former board member of LTA. Swee Cheang first started as a senior data and database management consultant at International Computers Ltd (ICL, UK) and British Gas. While working for ICL, he was a consultant to Abu Dhabi National Oil Company, J Sainsbury, Guinness, ICL Australia and Heinz. Swee Cheang was awarded the Singapore Public Service Medal in 2009.
